## Beautifully Carved Memorials

This brochure acts as a guide to the range of one off, individual, bespoke memorials our approved memorial masons can provide for you. Please contact us should you require a larger brochure showing a greater selection for your consideration.

It is important to remember that any shape or design can be carved and in almost any material (granite, marble, limestones and sandstones) and all styles and designs are interchangeable.

We only recommend independent high quality memorial masons who have sufficient time-served experience and the correct qualifications and accreditations (BRAMM Accredited and Licensed) to safeguard our clients.
